

ANNOUNCING THE DEVELOPMENT OF A NATIONAL EXCEL TEAM

At the recent Board of Director's meeting for Excel International de Colores held in Scottsdale, AZ., (July 5, 2007) the BOD made the historic decision to create a "National Excel Team"!

The rationale behind this decision was simply that at the booth for Excel International at the General Conference of UFMCC, there seemed to be a great deal of interest in Excel providing our basic and the original Excel retreat weekend to various churches in the USA and in the UK.

Unfortunately, we do not have enough active teams to provide Excel weekend retreats in those areas that were interested in having our original spiritual retreat. Therefore, the decision was made to develop a 'National Team' of former and current Excel team members from all over the world to create a data base of interested and experienced Excel folks to come together and offer their gifts and talents to serve and be available to travel and participate on a 'suitcase team' so we can bring the Excel message to anywhere in the USA and in the world.

If you are one of these people who has served or is currently serving one of our current or past teams and you would like to volunteer your services to bring an Excel weekend retreat anywhere either in the USA or in the world, please contact Jerry Reitz at: www.excelinternational.org

You can email the Director (Jerry Reitz) of the National Team at this address on our BOD page.

It is our intention to share the Excel message with as many churches and people as possible each year and not necessarily to seed new Excel teams but just to go and share what it means to all of us to "Live In Union With God"!!

De Colores!
